REVISED ROCKY FLATS PLANT FY93 INTEGRATED PLANNING PROCESS EXPECTATIONS
(7464) - RDC-143-93

Ref R D Copp ltr, RDC-110-93, to James K Hartman, Rocky Flats Plant FY93
Integrated Planning Process Expectations, June 18, 1993

Expectations for the Integrated Planning Process (IPP) including projections concerning the Fiscal Year (FY) 1993 Interim Integrated Roadmap deliverable were forwarded to you in the referenced letter EG&G Rocky Flats, Inc, received comments and concerns from your office upon review of these projections Based upon your direction EG&G Rocky Flats has revised the projections for the 1993 IPP project deliverable All comments from the cognizant Department of Energy/Rocky Flats Office (DOE/RFO) counterparts have been incorporated into the attached revision The revisions clarify information and projections for the 1993 Interim Integrated Roadmap It is important to note that the Interim Integrated Roadmap is only one element of a process which will also include a strategic planning element, and numerous upgrades to the Management Control System Additionally, Integrated Planning will take the next evolutionary step in transition planning and will replace the Mission Transition Program Management Plan

Stakeholder involvement in the IPP is underway in both the public and the regulatory community Stakeholder involvement will generate input which will be incorporated into the Interim Integrated Roadmap However, it is not anticipated that consensus will be reached on elements such as issue prioritization or risk management for FY93
